OFFICE OF THE DIRECTOR,

Dated, Bangalore, 28th October *1930*.

FROM

C. RANGANATHA RAO SAHIB, Esq., B.A., B.L.,
Director of Industries and Commerce in Mysore,
(Bangalore, India.)

To

Yr 33-30-3

B. Narainsamiengar, Esq., B.A., B.L.,
Secretary to the Government of Mysore,
Development Departments, Bangalore.

SIR,

I have the honor to state that the sales of soap during the current year amount to nearly a Lakh of Rupees a quarter and I expect that the total sales during the current year will not fall short of about 4 Lakhs of Rupees. The accommodation at present available in the Soap Factory is very inadequate to store the raw materials and the finished goods required to carry on sales of about Rs 4 Lakhs worth of soaps per annum. The building at present is extremely congested and it is desirable that the factory should be shifted to a more suitable place very early.

Before however, the question of shifting the factory is decided, it is desirable that some temporary platform should be put up in the present building itself to enable the factory to meet its increasing demands. It is also necessary to purchase some additional Toilet soap machinery. The Industrial Chemist ~~recommends~~ that a Plodder and a Roller Mill with a Motor to work this plant is absolutely necessary. He has with my approval accepted the offer of a German firm, Messrs. J. M. Lehmann, Machinenfabrik, Dresden, (Germany) to supply the plodder and Roller Mill of the original price at £ 440/- , subject to a discount of 10 per cent. The total value of the plant now ordered is £ 396/-. A sum of £ 9/- is required to provide a suitable heating apparatus for the Plodder. This will bring the total value of the plant ordered to £ 405/- or Rs 5,400/-. I request that the sanction of Government

Government may kindly be obtained approving of my having authorised the Industrial Chemist to place the order for this plant in Germany on these favourable rates. The amount can be met from the sum of Rs 11,406/4 available in the Budget of the current year to meet the charges on account of additional equipment of the Government Soap Factory. I beg to state that a sum of -- Rs 15,000/- was provided in the budget for this purpose and that a sum of Rs 3,593/12 spent on purchasing equipment last year was directed to be met out of the provision for the current year - vide letter No. D. 1669/I & C 33-20-2 dated the 11th August 1930 - and the balance available for the purchase of additional equipment during the current year is Rs 11,406/4.

It is necessary to purchase a 15 H.P. Electric Motor and shaft -ings for the working of the Plodder and the Roller Mill. The In -dustrial Chemist estimates that the total charges on this account will amount to Rs 3,000/-. The Industrial Chemist has also suggest -ed that a Drying Chamber is absolutely necessary to dry the Soap Chips. He has placed an order with a local firm for the manufac-ture of a Drying Chamber. The cost of the Chamber is Rs 1,500/-.

The total estimated expenditure on account of the three items referred to above amounts to Rs 9,900/-. The balance available out of the grant of the current year is Rs 1,506/-. This amount is neces -sary to put up some temporary platforms in the Government Soap - Factory for storing raw materials etc. I beg to request that the sanction of Government may kindly be obtained very early to appro -priate the balance available for capital equipment of the Soap - Factory for the purposes mentioned above.

I briefly summarise the items on which the grant is proposed to be expended. They are as follows -

i)	The cost of the Plodder and Roller Mill	Rs 5,400/-
ii)	Cost of 15 HP Electric Motor, shaftings and other accessories	3,000/-
iii)	Drying Chamber	1,500/-
iv)	Temporary Platforms	1,506/-
		Rs. 11,406/-

The Comptroller to the Government of Mysore may be authorised to instruct Messrs. Coutts & Co., to pay Messrs. J. M. Lehmann, -- Machinenfabrik, Dresden, Germany, from whom the plodder and the - roller mills have been ordered 80 per cent of the value of the - machinery on presentation of shipping documents. The balance -- will be paid after the machinery has been installed and is proved to work satisfactorily.
